

OUR GREAT ANNUAL JANUARY SALE OF MUSLIN UNDERWEAR

This is the department's most popular and successful sale—presumably because Last & Thomas has tremendously increased its purchases and the important price advantage obtainable on quantity orders has been passed on in full ratio to patrons. The ample stocks are practically as full and fresh for this second week as at the sale's beginning. We earnestly solicit your thorough investigation of the substantial economies afforded.

ANNUAL SALE OF OCEANS OF EMBROIDERIES —POSITIVELY REMARKABLE VALUES—EMBROIDERY BAR GAINS TOO GOOD TO LET GO BY.

COATS ARE AGAIN MARKED DOWN TO 1/2 AND LESS

BROKEN LOTS OF TAILORED SUITS AGAIN MARKED DOWN

The new reductions that have been made upon the remaining broken lots of Suits is 50 per cent and less.

BUY GLOVES NOW FOR SPRING WEAR

You will save enough to make it worth while to buy in advance a pair of these twelve-button length Mousquetaire Prime German Lambskin Gloves at \$1.49. They are in White and Black and good values at \$3.00.

LAST & THOMAS

SALT LAKE AND STATE NEWS LEGISLATURE HAS BUSY DAY

UNIVERSITY TO BE VISITED BY
LEGISLATORS.

Senator Miller Brings Claim of Frederick Blake, Containing Startling Statements, Before Senate.

Among the matters brought to the attention of the senate yesterday afternoon was a claim presented by Senator Miller for Frederick Blake, a well known citizen of Washington county, who demands \$300,000 from the state on the ground that he was wrongfully imprisoned in the State Mental hospital at Provo for 20 years. Before he was sent to the place, he was looked upon as a man of wealth. Since then he has lost all, and contends that he suffered all kinds of torment in the institution.

Blake, in his letter to the senate and house of representatives, says that he was admitted to the asylum from St. George, Jan. 5, 1887, under a false report and without a hearing. At the hospital, he asserts, the attendants swore at him and threatened that he should go away in a wooden box. He asserts that they dashed him against the walls and stamped on him with their shoes, fracturing his skull, mashing his right ear and ribs. He asserts that he was put in a room for a corpse. He asserts, "I don't believe Christ suffered more." On one occasion he escaped to Salt Lake City. After being brought back he was tied and strapped to an iron bed and beaten with an oak club. On this occasion, he says, his right arm and ankle were broken. On another occasion, he asserts, he was visited by a number of men at midnight and a quantity of poison was forced down him. He says that another effort was made to kill him by locking him up in a close room and not allowing him to take exercise. Before being sent to the hospital, Blake declares, he owned homes, horses, cattle, sawmill and farming lands. He now says he has but seven acres of land left. He also mentions a number of employees at the hospital who can be called as witnesses. He declares that should the state not see fit to allow him \$300,000, he will be satisfied with a pension of \$2,500 a year.

In the senate, Senator Miller intro-

duced Senate Bill No. 13, providing that county health officers shall be paid their traveling expenses, going to and from state conventions, and that such shall be paid by the district from which they come.

Senator Miller offered in the senate concurrent resolution No. 1, providing that typewriting machines be recognized in the making of the official copies of bills.

The following measures were introduced in the house yesterday afternoon:

House bill 21, by Archibald, providing for the selection and use of text books in public schools.

House bill 22, by Ashton, relating to juvenile courts.

House bill 23, by Ashton, on curfew law.

House bill 24, by Ashton, relating to the establishment of detention schools.

House bill 25, by Ashton, relating to the protection and supervision of dependent children.

H. McMillan asked unanimous consent to withdraw house bill 13, an act establishing a uniform standard of weights and measures. On motion of Thompson the request was granted and the bill was withdrawn.

Speaker Robinson named as additional members of the fish and game committee of the house, Representatives White of Utah and Fuller of Weber.

Representative Cannon of Salt Lake introduced a resolution, which was read and referred to the committee on education. The resolution was as follows:

Whereas, The trustees of the Carnegie Foundation for the Advancement of Teaching, have included the state universities in the list of beneficiaries of the Honorable Andrew Carnegie's generous gift for the advancement of teaching; and

Whereas, The University of Utah is entitled to become a beneficiary, because it is a state university, and because it meets the requirements set forth by the trustees of the Foundation; therefore be it

Resolved, By the senate and house of representatives of the state of Utah that the legislature of Utah hereby heartily approves the application made by the regents of the University of Utah to the trustees of the Carnegie Foundation for the Advancement of Teaching.

ROBBERY BY WHOLESALE.

First Steal Horse and Buggy and Then Load It With Plunder.

Salt Lake, Jan. 20.—After stealing a horse and buggy belonging to W. J. Morton of Tenth West and Tenth North streets, three youthful burglars proceeded to the barn of Pat Moran on First South just below West Temple street, about 10 o'clock last night, and proceeded to load the buggy with sacks of oats. While one of the young men was throwing sacks down from the left the other two were loading them into the buggy. Their work was detected by a young man

who happened to drive to the barn to leave a horse there. He quickly notified Patrolman George Harris and the latter lost no time in getting to the scene.

Upon arrival of Harris at the barn, the youths saw him and started to run. Harris seized one of them and halted another by threatening to shoot. The third managed to make his escape in the darkness.

The two young men arrested gave the names of William King and Geo. Smith. At first they declared the third youth told them the oats belonged to him, and that it was all right to remove them, but later when it was learned they had stolen the horse and buggy they admitted their guilt. They had evidently planned to make a big haul as they had prepared 18 sacks of oats to take away. They will be charged with burglary in the second degree. The police are looking for the third member of the gang.

CHILDREN PLACED
IN HOMES BY COURT.

Mr. and Mrs. Plummer Adopt a Two Months' Old Baby; Other Cases.

Salt Lake, Jan. 21.—Two children, one a 2-months-old boy, deserted by unnatural parents, were placed in homes by the juvenile court at its sitting Wednesday morning.

The boy, born out of wedlock and left upon a doorstep in the southeast part of the city a few hours after birth, was first placed in the State Street orphanage; but before the order was carried out he was adopted in Judge Lewis' division of the district court by W. R. and Jane Plummer, upon whose doorstep he was placed by the unnatural mother. The youngster will be known as David William Plummer.

The other child, Teena Mumford, a 12-year-old negro girl, was taken into custody by Mrs. Jane Council, a negro.

Ben Bishop, 17 years old, a ward of the court, has not lived up to the requirements of his parole from the State Industrial school, to which he was committed for petty thieving about four months ago, and he was taken into custody and remanded to the school. Young Bishop has expressed a desire to join the navy and as soon as his brother, George Bishop, can make arrangements to accompany him to a recruiting station he will be released from the school to enlist in the navy. The lad's parents are dead.

Two boys, 16 and 17 years old respectively, one of whom said he learned to play pool at the Y. M. C. A., were allowed to go upon probation on the charge of frequenting poolrooms. One of the lads said he was not a

TWICE-TOLD TESTIMONY.

Ogden People Are Doing All They Can For Fellow Sufferers.

Ogden testimony has been published to prove the merit of Doan's Kidney Pills to others in Ogden who suffer from bad backs and kidney ills. Last night a sufferer doubt that the cures made by Doan's Kidney Pills are thorough and lasting, we produce confirmed proof—statements from Ogden people saying that the cures they told of years ago were permanent. Here's an Ogden case:

Thos. W. Wootton, 732 Barlow Lane, Ogden, Utah, says: "For a year or more my back was very lame and sore and pains through my joints were so severe that I was hardly able to regain an erect position after stooping. In the morning when I arose the pains would be so acute that I would hardly be able to move. At last I decided to try Doan's Kidney Pills and procured a box from Badon's Pharmacy. They promptly eradicated the trouble." (From a statement given July 30, 1906.)

Cured to Stay Cured.

On the 21st of September, 1907, Mr. Wootton confirmed his former statement, saying: "The cure Doan's Kidney Pills affected has proved permanent and I heartily recommend them to anyone suffering from kidney complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

POLICE MAKE QUEER FIND.

Greenbacks Found Tucked Away in An Old Pipe.

Salt Lake, Jan. 20.—An old man giving his name as Jacob Delvany, and looked as though water had been placed under a bar, was picked up by police Officer Pierce this afternoon. When searched at police headquarters nothing of value was found upon him save an old greasy pipe. Something about the pipe attracted the attention of Jail Desk Sergeant Pierce, however, and upon close examination a secret spring was revealed which upon being pressed, opened, disclosing \$175 in crisp new greenbacks, securely tucked away therein. The old man is thought to be demented and an examination will be held.

AXEL CARLSON IS
DECLARED INSANE

Salt Lake, Jan. 20.—Axel Carlson, who killed his sister-in-law, Mattie Ecklund, at Sandy on Thursday night, will escape the executioners for the same reason that Harry K. Thaw did not suffer the death penalty for the killing of Stanford White. Carlson is pronounced a paranoiac. Furthermore, the lunacy commission which has been sitting upon his case for two days says that he is a degenerate of the worst type.

The commission has found that Carlson's case is one of unusual malformation. No two members of his body are alike. His right ankle is enlarged, his right ear, right nostril, right shoulder and hip are all abnormal and of peculiar formation. His hips are sunken. His right eye differs from the left in its form and expression.

All of these things, which were discovered by the doctors who made a physical examination of the murder, have resulted in a decision to send

him to Provo, where he will probably spend the remainder of his natural life at the state mental hospital.

Physically and mentally the man is abnormal. His sister, Mrs. Emma Hickman, told the insanity commission that he had complained of imaginary noises by wagons and trains, and he had a delusion that the smelters had stolen a smoke consuming device which he had invented. He had been addicted to the use of liquor since he was 12 years of age. Anton Gustave Carlson, a brother, also had noticed that the man acted queerly since Christmas, and had induced him to come from Park City to Salt Lake to obtain work, thinking that he might be better.

member of the Y. M. C. A., but that he went there and tendered money to play pool and was allowed to play.

TERRIFIC MUD SLIDE IN PROVO CANYON

Considerable Damage Is Done to the Telluride Power Plant.

Provo, Jan. 20.—A terrible mud slide, which did damage to the extent of \$2,000 and put the city in darkness and without power for a time, occurred this morning in Provo canyon, near Helslet's ranch, two miles above the power plant. The slide totally destroyed about 400 feet of the flume of the Telluride Power company and it will be impossible, officials state, to repair the flume under ten days or two weeks. The heavy rain of last night and this morning loosened the mud on the side of the mountain and caused the slide. Power and light for the city are now being supplied by the Telluride company's plant at Logan.

The snowslides on the Denver & Rio Grande road in Provo canyon have now been cleared away, but still trains are unable to run between here and Heber City. With the clearing of the big snowslide at Bridal Veil Falls, two immense mud slides were found opposite Ferguson's ranch. Not a train has been run over the road to Heber City from here since a week ago last Sunday, and none will be run before Friday or Saturday, as it will be impossible to get the tracks cleared of the mud before that time. The mail for Heber City is being carried on the train as far as Ferguson's ranch. A handcar comes down from Heber to the other side of the slide and the trip is made over the mud on foot. The mail is then taken to the handcar, and in this manner reaches Heber City.

THEATRICAL

"FIFTY MILES FROM BOSTON"

Drew Good Crowd at the Grand Opera House Last Evening.

George M. Cohan's delightful musical comedy, "Fifty Miles From Boston," drew a good house at the Grand last evening in spite of numerous counter attractions. The piece is semi-pastoral in character and reminds one in some ways of George Ade's "County Chairman." The company was a capable one and received on the whole, an enthusiastic reception as any musical attraction presented at the local play house this season. An especially appreciable feature was the fine musical program which teemed with the jingles of George M. Cohan. The local orchestra entered into the spirit of these sprightly airs with unusual vigor and earned much favorable comment.

There were a number of the cast deserving of special mention, probably the most popular of whom was Mrs. Westford, who took the part of "Mrs. Tifford." There were probably many in the audience who were unaware that they were applauding the clever comedy of a younger sister of Lillian Russell; in fact, the only sister of the "Queen of Comic Opera" who follows the stage for a vocation. Mrs. Westford, better known as Suzanne Leonard, her real name, only returned to the stage a season ago, after having retired from the profession. She was formally in vaudeville, and like her celebrated sister, won much fame as a footlight favorite. Last season she was with Lillian Russell in "Wildfire," having the part of Janet. Her work last evening was very good.

Hazel Lowry, as Sadie, the post-mistress, was well received. She is a pretty slip of a girl, graceful in her movements and charming of manner. The part of Bess, "Little Johnny Jones" was written for Miss Lowry, but instead of being the first to play it she was engaged as understudy to George Cohan's sister, Josephine, in his successful "Running for Office." She afterwards played Bess as anticipated.

W. D. Stevenson as Joe Westcott won approval with the audience and did very well with the opportunities afforded by the part. He has been seen, however, to better advantage, especially in the original "Merry Widow," where he had the part of the "Prince," playing opposite the charming Cecelia Loftus of mimicking fame.

Messrs. Sparks and Willard as the comedy belaguerers were heartily applauded. Walter Richardson, as young Harrigan, and Thomas Emory as Jed, did well throughout. In fact, as the juvenile boy-around-the-barn, was also enjoyed.

"THE GREAT DIVIDE"

"The Great Divide" is in three acts. The first represents the interior of a cabin on a cactus farm in southern Arizona, the second a picturesque plateau high up in the Cordillera mountains, and the third the interior of an old New England home in Milford Corners, Mass. From this some idea of the spirit of the play may be formed. The heroine is a Massachusetts girl who goes with her brother to Arizona to make their fortune in the cactus fibre industry. There she meets a man of the West, one used to a wild, care-free existence and a loose philosophy of life. They are strangely met and she is strangely won. This is in the first act. The remainder of the play is a dramatic adjustment of the lives of the Puritan woman and the son of the mountains and plains.

The man is regenerated through love for the woman, while she, at first all pride and priggishness through training and heredity, at last by force of the subversive power of love, recognizes him as her lord and master. At the Grand Friday and Saturday evenings.

GOLDFIELD CONSOLIDATED

Goldfield advises just at hand are to the effect that last week witnessed the placing in commission of the entire battery of stamps, 100 in number, of the mammoth reduction works of the Goldfield Consolidated. An average grade of ore is being supplied, so that the company is now securing a normal production.

An erroneous impression has gone forth regarding this company's developments at the Clement shaft, sunk vertically for the purpose of commanding the Mohawk vein in the

Good Clothes Are An Important Asset

Style costs nothing but you may lose much in the way of opportunity and position, if you are neglectful of your personal appearance. Nothing adds more to the dignity of a man than becoming, stylish apparel.

territory below the 600-foot level of the Mohawk shaft.

The Clement shaft is bottomed in the Mohawk quartz mass, which has a thickness of 400 feet and in the center of which is the ore shoot proper. In passing through the hanging side of the quartz formation the shaft encountered ten feet of ore assaying 3 to 4 per cent copper and \$14 to \$16 in gold. This ore was entirely unexpected, as there are no values on the hanging wall in the levels below. The shaft is being carried down to a depth of 925 feet, where, after cutting a station, a drift will be extended south to the commercial ore shoot.

Developments on the Combination and Red Top continue extremely favorable, the openings of the former looking better than ever heretofore. Since resuming operations at the Red Top, a drift has been extended 150 feet north, in the direction of the Dounell lease, in which commercial ore has been disclosed for its entire length. Recent drifting south has also extended the known ore body over 100 feet in this direction.

Goldfield is now a proven camp. The leasers, to whom it is everlastingly indebted, are being retired and within a very brief period operations will be exclusively company account. The directorate was changed this week by the addition of three names—Mr. Charles Hayden, Mr. J. A. Carstairs, representing New York and Pittsburgh interests, and W. C. Ralston of San Francisco, representing Pacific coast interests. The other directors are Messrs. Geo. S. Nixon, Geo. Wingfield, J. D. Hubbard and J. H. Mackenzie, the general manager.

TELEPHONE SYSTEM FROM
BOSTON TO OMAHA PLANNED

Boston, Jan. 21.—Plans for the construction of an independent long distance telephone system from Boston to Omaha and Lincoln, Neb., calling for an expenditure of \$5,000,000, will be perfected, it is said, during the conference of independent telephone company officers, which will convene in this city on Saturday next. Financial arrangements have already been made, according to information at hand, and the details of construction and operation only remain to be adjusted. The project has been under discussion since last May and is being engineered by Max Koehler, one of the most prominent independent telephone men in the country, and by H. C. Stifel, of St. Louis. Officers of independent telephone companies generally will be identified with the movement. Within the next five years, it is said, approximately \$30,000,000 will be invested in the enterprise.

ROOSEVELT IS GREATEST
INTERNATIONAL BOOSTER

New York, Jan. 21.—"The greatest international booster," was the term applied to President Roosevelt in a speech by Charles H. Treat before the Boost club at its annual dinner at the Hotel Astor last night. John Temple Graves was among those who made speeches. Concerning the president, Mr. Treat said:

"He boosted the American flag into recognition among the nations. He sent sixteen ships of war painted in the color of peace, around the globe to show a thousand million people the western civilization founded by our fathers."

ALIENISTS REPORT
MRS. ALLEN REED SANE

Denver, Jan. 20.—Mrs. Allen F. Reed, who attempted to dynamite Mrs. Genevieve Chandler Phipps, sane and has never been insane is said to be the report of the alienists for the state. This report is now in the hands of District Attorney Elliott. The physician also reported that Mrs. Reed is not addicted to the use of drugs and that there is no reason why her trial should not be proceeded with.

WOMAN SUFFRAGISTS ARE
NOT ALLOWED TO PREACH

New York, Jan. 21.—Lacking the

necessary permit to hold a public

meeting in the street, a number of

prominent suffragists, headed by Mrs.

Boorman Wells, were dispersed in the

theater district last night by the po-

lice. During their protest, one of the

women said indignantly that the Sal-

vation Army was allowed to hold

street meetings.

"Well, religious meetings are dif-

ferent," explained the policeman.

"But this is religion to us," retort-

ed one of the women, "and you have

delivered a great blow to our cause by

your action."

But the police were firm and the

rally was not held.

FATHER ACTS AS BEST MAN
AT WEDDING OF HIS SON

Chicago, Jan. 21.—A father acting

as best man at the wedding of his

son, was the unusual feature at the

marriage yesterday of Miss Kathryn

Charlton of Oak Park, and Lloyd R.

Steers of Chicago. George S. Steers

served his son as best man.

For years the father and son have

been almost inseparable chums, liv-

ing together at the Union League club

and being the joint owners of the

yacht Vanadis, which, it is said, fig-

ured in the romance of the young couple, whose engagement followed a

cruise on Lake Michigan.

VICTIM OF EXPERIMENTS HE
PERFORMED WITH MERCURY

New York, Jan. 21.—Charles Geok-

ing, 51 years old, who died suddenly

last night after being stricken at a

station of the "L," was the victim of

experiments he had performed in the

laboratory of a firm of wholesale

chemists, where he was employed.

He had been engaged for several

days in making experiments in which

it was necessary for him to handle a

considerable quantity of mercury and

it is said he absorbed enough of this

into his system to cause death.

MARRIED WOMEN

Every woman covets a shapely figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided by the use of Mother's Friend before baby comes, as this liniment prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend makes the danger of child-birth less, and carries her safely through this critical period. Thousands gratefully tell of the benefit and relief derived from the use of this remedy. Sold by druggists at \$1.00 per bottle. Book mailed free to all expectant mothers. THE BRADFORD REGULATOR CO. Atlanta, Ga.

MOTHER'S FRIEND
